

# Client Community

## What it is

Client Community is an online portal we created exclusively for you. Through this portal you and your HR staff can access comprehensive research tools, information and news that will help you manage your benefits programs. We can use Client Community as a "WorkSpace" to send and receive messages and documents to each other in an efficient, secure way. In addition to the portal, you will receive monthly e-newsletters packed with timely content.

Your Client Community puts comprehensive research tools, information and news within your reach.

Now you can research any benefits topic with Benefits Essentials...

...and find out everything you need to know about HIPAA...

...and even interact with us through WorkSpace.

Summary			
Date	Action	Item	
11/10/2003	Received	<a href="#">Great study on health care cost crisis</a>	<a href="#">note</a>
11/03/2003	Received	<a href="#">Benefits Enrollment Proposal</a>	<a href="#">note</a>
11/03/2003	Posted	<a href="#">Help! My CFO Presentation</a>	<a href="#">note</a>
11/03/2003	Received	<a href="#">Xuberant Cost Analysis Spreadsheet</a>	<a href="#">note</a>
11/03/2003	Posted	<a href="#">I Got It</a>	<a href="#">note</a>

**Client Community is a complimentary service provided to you exclusively by Benecept Consultants, Inc.**

## What it does

Client Community comprises the following resource areas:

### WorkSpace

You can get work done on a minute-to-minute basis through WorkSpace. You can send messages or documents (PDF, Word, Excel, etc.) to us and we can do the same. Unlike e-mail, we can both retain an organized trail of the information exchanged, thus establishing a new, highly efficient and secure workflow. In fact, WorkSpace will make it easier for us to keep in touch more pro-actively and more often!

### Services

We have placed a variety of helpful information in the Services area for your convenience.

### Resources

The next time you need to educate yourself or your employees on a benefits or HR issue start with the Resources in Client Community, including:

- > **Benefits Essentials** — a comprehensive research portal that explains and simplifies complicated information about a host of benefits and HR topics.
- > **HIPAA Privacy Manual for Employers** — developed by HIPAA Solutions Rx, this manual gives you unlimited, free access to an online reference that covers the extensive world of the HIPAA Privacy Rule.
- > **Employment Practices** — education on key practices with exclusive access to background checks, drug testing, ethics and compliance hotlines and exit interviews from The Wackenhut Corporation.
- > **Employee communications** — including wellness articles, educational content on health, insurance, financial and work/life topics and a glossary.

### News

There is a news section where you can view up-to-date news from our firm. In addition, Client Community includes frequently updated HR industry news from *Employee Benefits News*, a leading publisher.

## What it can do for you

We offer Client Community as a value-added service for you and your HR team. You can perform extensive research, find out valuable information about our services and much more.
